

Megown

Test & Measurement Inc.

FOR IMMEDIATE RELEASE

Megown Test and Measurement Inc. is authorized to the
Agilent Advantage Assurance program

Roseville, CA (June 1, 2005)

Megown Test and Measurement Inc. has been added as an authorized reseller to the Agilent Advantage Assurance Program. Pre-owned instruments sold under the Agilent Advantage Assurance program have been evaluated, calibrated and guaranteed by Agilent to meet performance standards, giving customers a low-risk option for purchasing pre-owned test equipment.

Megown Test and Measurement Inc. is a leading U.S. provider of pre-owned test and measurement equipment for a variety of industries including electronics, aerospace and defense, communications, and higher education. The company offers fully refurbished equipment and has a proven track record of customer satisfaction.

About Agilent Assurance

Under the Agilent Advantage Assurance program, Agilent or HP brand pre-owned instruments purchased through an approved Agilent reseller are sent to Agilent for evaluation and calibration to full product specifications. Instruments covered by the program come with two years of protection against all repair costs and two years of free technical support. Agilent Advantage Assurance equipment has been available through resellers on eBay since March 2004.

About Megown Test and Measurement Inc.

Megown Test and Measurement Inc. maintains items from up to 250 manufacturers including Agilent, Fluke, Anritsu and Tektronix, and regularly buys used equipment to augment its inventory.

Megown Test and Measurement Inc.'s sophisticated product inspection and testing process and state-of-the-art calibration laboratory ensure consistent product quality. Over its 30 years of experience in the refurbished test and measurement industry, Megown Test and Measurement Inc. has served thousands of customers around the world including Cisco, Intel, Broadcom Corporation, REMEC, L-3 Communications and Stanford University. Information on available products can be found at <http://www.megown.com>.
